THE SUFFRAGE AMENDMENT GOES TO THE STATES-LOCH AND BROWNING RESIGN - GRANT AC

WASHINGTON, February 27 .- Governor Geary and Judges Agnew and Williams all declare that their signatures to McClure's papers urging Grant to appoint Curtain are forgeties.

The Senate has passed the suffrage amendment, and it now goes to the State Legislatures. As finally passed it confers no right to hold office.

The Reconstruction Committee have deter mined to make no report concerning Georgia, thus leaving her representation in statu quo. In the contested case between Menard (colored), and Hunt, from Louisiana, Menard was allowed to speak. Hunt declined to speak. McClure publishes a card, which discredits

the exactness of the reports of his interview with Grant. It is stated that McCulloch and Browning have sent in their resignations, to take effect

General G ant opposes unseating the Georgia representatives, and the postponement of the Georgia matter by the Reconstruction Committee is attributable to his influence.

General Young, member of Congress from Georgia, who has warm personal relations with Grant, had an interview with him last night regarding Georgia matters. General Grant said that Congress could not get around recogmizing Georgia as a State in the Union, and that he himself was opposed to interfering with her at all. Grant's visit to Boutwell this morning grew

ent of this interview.

The clerk of the House has not yet made the roll of the next House. The recent statement that he hallomitted Louisiana, and Georgia are at least premature. In fact, but faw credentials have yet been presented. In regard to Georgia, it see us to be understood that if the certificates from Ballock are in the usual form, the names will be placed on the roll, but if the Governor makes the certificates the vehicle of argument or explanation, the clerk will hold them for the consideration of the House.

Hurley of the Lobby-Passage of the Savannah and Charleston Railroad Bill-Arms for the Militia-Codifying the Laws-Barnwell Courthouse to be Changed to Brackville-Final Passage of the Charleston Election Bill-It Awaitsthe Governor's Approval.

[FROM OUR OWN CORRESPONDENT.] COLUMBIA, S. C., February 27, 1869,-The session of the General Assembly is drawing to a close, and from fifty to sixty bills are ready for a third reading. Railroad interests largely predominate in the matter of unfinished business, and members are continually beset with the inquiry, "when is my railroad coming up?" The question is generall. answered by a reference to the Speaker of the third House, alias the lobby, Hon. Tim. Hurley. The latter, though having no clerks, keeps well posted, and smilingly replies. "that's all right, will be made the special order the first opportunity." Nearly every one of these enterprises now before the General Assembly are, at the present time, only seeking for charters. Such are those introduced in the Senate by Senator Dickson, namely, the South Carolina Central Railroad Company, which runs from Gourdin's Station, on the Northeasteru Railroad, through to Manning, and the Florence and Lancaster Railroad. Then there is the Augusta and Manchester Railroad, and Wateree and North Carolina, also asking charters. Those asking aid are the Chatham Railroad, only three millions of dollars in endorsed bonds of the State; and the Union and Spartanburg Railroad, the latter, considering its importance, making a moderate and modes request of fifteen hundred ter, though having no clerks, keeps well posted, erate and modes request of fifteen hundred thousand dollars endorsed bonds. The bill to enable the Savannah and Charles-

ton Railroad Company to complete its road, to the agreeable surprise of many friends, passed is second reading in the House quantimously to-day. There was but little debate. Ransier made an admirable speech in support of the bill, and concluded by offering the following as a substitute for section 5, which was adopted: SECTION 5. The said railroad company shall deposit the interest on all the raforesaid bonds as it becomes due with the Finuncial Agent of the State of South Carolina in the hty of New York, and shall notify the creditors of the same by public advertisement in one newspa-per in N w York, one in Charleston and one in Ravannah; and if said company shall fail to pay the interest on its debt within six mouths after it shall become due, or fail to pay or provide for the payment of the principal of its debt within six months atter it shall become due, it shall be the duty of the Comptroller-General of the State, and he shall have the power, to take immediate possession of said road with all its appurtenances, and leave the same to responsible parties who shall have control thereof until the General Assembly shall by law provide for the settlement of the affairs of said company in the interest of all its creditors. The Governor of the State is hereby authorized and empowered to appoint

two directors to represent the State in the direction of said ompany.

The passage of the bill may be regarded as a good day's work by the Legislature for Charles-ton. It will receive its third reading on Mou-day, be sent to the Senate for concurrence in

the amandment, and be enrolled for ratifica-tion, after which it goes to the Governor, who will undoubtedly approve it.
The bil to provide for the c d fication of the Statute Laws of the State seems likely to be the same bitter bone of contention that charac-terized the measure at the average. the same bitter bone of contention that characterized the measure at the succial session. The two Houses have, so far, been unable to agree upon its principal features, namely—the number of commissioners and the salaries to be given for the service rendered. The passengers had unanimously signed a petition to the Emperor testifying to their gratitude and admiration for the heroic conduct of these three officers.

The articles were pieces of household furniture, clothing, dishes and papers, which formerly belonged to General Wishington. Secretary Browning has decided to grant the request, and an order has been given to turn the articles over to the person depited by General Lee to receive them.

—It is said that General Grant became, exceedingly wroth at the disposition made of the Tenure-of-office bill. Two days before he died, he had smothering spells, and did not seem to realize his condition until the day he died. On Tuesday morning, as he was sitting in his chair, he clasped Mr. Ostrander's hand and cried, "Oh, Jim! My God! I'm gone!" He sent for Mrs. Ostrander, and requested her to write to his wife. Writing materials were brought, but it was some time before he could speak. When ask d for his wife's address, he could scarcely get breath to gasp "Charleston, South Carolina," the place of her residence. Mr. Douglas Taylor presided, and General Beauregard was seated on the left of the chair. When General Breckipridge arose, in response to a toast, he was greeted with repeated rounds of applause. He briefly returned his thanks, and resumed his seat without touching on political topics. In private conversation, however, the General gave an amusing account of his bardships in the wilds of Florida, while escaping from the ruiss of the fallen Confederacy. He spoke feelingly of the sufferings of President Davis, and told an interesting story of his first meeting with Mr. Davis in Europe wails at the house of Mr. Erlang r, in Paris. The General, in answer to inquiries, said that Mr. Slidell still remained in the French capital, and bad expressed no intention of returning to Louisiana. He had not seen Mr. James M. A remirk was made in reference to the reported intention of the Kentucky wemoeracy to nommate General Breekinrid ;e as their candidate for Governor. The General smiled, and drew his segar from between his teeth. Here the General hesitated for a moment, and then continued as follows: We all know what the Tenure-of-office law was enacted for. It was passed to prevent an Executive from using the office at his disposal for corrupt purposes, but from what they did in Congress yesterday, I am disposed to think that the Senate will desire to be the judges as to what I shall do." Another pause. "Well, if they do not repeal the law, I certainly cannot make any changes. I cannot remove a man without repeal the law, I certainly cannot make any changes. I cannot remove a man without making charges of a character which would blast his reputation, and that would not be very agreeable, you know; and the result will be that the men who hold office now will continue to hold them until the end of the term, no matter what my dearner may he of correct no matter what my desires may be. Alexander McClure, of Pennsylvania, called Alexander McClure, of Penns Ivania, called upon General Grant, a few days ago, and after inquiry if it is true that Pennsylvania is to have a member of the Cabinet, and receiving an affirmative answer, he inquired it Governor Curtin is the man. Mr. Maxwell, Mr. Reafield and myself have gossiped, as old men will, of the earlier and better days of our State and country. Mr. Maxwell is d voting the evening of his his to a work which will be found very interesting to New Yorkers. He writes (by the hand of a devoted grand-daughter) an hour or two every day. His health is fully restored, and his mind and memory are as strong and retentive as they were forty years ago.

WITHOUT A RIVAL .- "I have long been ar enthus ast, if not an expert, among the sewing machines. Besides, mr wife is practically fimiliar and experienced with the leading mafinitiar and experienced with the leading machines. I have made critical ex-minations and severe tests of tweive different machines claiming to be 'first-class,' and I am entirely satisfied that the Willory & Gibbs is far above all others in practical worth; that it is without a rival. The complication of delicate machiner, so comm n in other machines, seems to be wholly eliminated in this; and I have no doubt it will live to see other first-class machines forgotten. Mrs. Reid says it class magaines forgotten. Mrs. Reid says it is certainly the best, beyond comparison. The rotation hook of the Willow & Chob's machine is the beauty and perfection of susplicity it-self; and I have nothing more to expect or ask."—[Letter of Rev. H. A. AT THE SHIP ANNA SCHMIDT, WHICH wa - dest oyed by the Alabama off the coast of South America, had on board a quantity of AYER's CHER-RY PECTORAL for California. Dr. AVER & C.J. now appeal for red ess direct to the British Govern ment, as the responsible party in this wicked business, and base their claim for payment and protection on the ground of humanity, as their commodities are wholly for the sick. Their point is well taken, and will do abtless be pressed with the pluck and persistency which characterize the operations of these celebrated chemists .- Baltimore Clipper.

PRESCRIBING FOR THE PEOPLE. is impossible, in the nature of things, that the amount (f good they d) should be at all in proportion to the popular need. They are confired, principa ly, to large cities. To the sick man in the remo'est We t. for example, of what use is the New York City Hospital, or the New York Discensary? But, alti ough asylums for invalids are not to be found everywhere, an unequalled tonic and alte ative is within the reach of all. There is no settlement that bears a name, within the limits of the Unit d states, where HOSTELIER'S STOMACH BILLER; is not procurable. It is a medicine for the whole commumity, easily obtainable by all its members.

At this period of the year, when the 'slant sun of Feb uary" is beginning to evoke unwholesome vapors from the earth, and the "fever and agu." season is cose at hand, this exce lent vegetable preparation should be taken as a FORTIF.ER OF THE STSTEM. All complain's proceeding from indigestion are rampant when the winter breaks up in a " round thaw;" simply because no s naible precautions are, as a rule, taken to prevent them. Forestall the evils that lie perdu in many a marsh, and swamp, and pool, ready to pounce upon the neglectful as soon as the sun shall have liberated the spring miasma from the reeking soil. Escape billous attacks, colio and all malarious endemics and epidemics, by a rengthening and regulating the digestive, secretive and di-charging organs with the MOST EFFIC CIOUS AND BALSAMIC OF ALL VEGETABLE INVIGORANTS: Dyspepsia is always a grava d by he damps of early spring, and Shakespeare tells us that "the sun in March, doth no sh agues." Against both these complaints HOSTETTER'S STO-MACH | ITTER- are the best possible protection. February 27

THE EXTENT TO WHICH THE ADUL TERATION of Liquors is arried on in this country makes it the duty of the purchaser to investi gate the merits of the article offered for sale. To all who desire it, ne will sen i a copy of the precription u ed (free of charge), with the direction or preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronch tas. &c. The object of the advirti er in sending the preser p ion is to benefit the afflicted, and spread inrmation which he conceives to se invaluable; and ne hopes every sufferer will try his remedy, as it will cost them nothing and may p ove a blessing.
